QLD COVID-19 update (27.04.2020, 0300 pm)

- Queensland Health's Chief Health Officer Dr Jeannette Young said currently, 966 of the 1,033 confirmed cases had recently travelled overseas or had close contact with a confirmed case, such as their partner or flatmate.
- Dr Young said a total of 99,527 tests for COVID-19 have been undertaken in Queensland, with 1,105 tests undertaken in the previous 24 hours.
- Queensland's testing criteria has now been expanded so that anyone in the state who has a fever (or history of fever) or acute respiratory symptoms can get tested.
- Most Queenslanders who have contracted COVID-19 have experienced mild symptoms. Currently, 15 of the 101 active confirmed cases are in hospital, with six of these in intensive care.

COVIDSafe: New app to slow the spread of coronavirus

The Australian Government launched a new voluntary app, COVIDSafe, to help stop the spread of coronavirus.

COVIDSafe uses technology to automate and improve what state and territory health officials already do manually. It helps identify people who have been in close contact with someone diagnosed with COVID-19.

More than 2 million Australians have downloaded the COVIDSafe app since its launch last night.

Case Comparison

WHO Regions

Europe	1,341,851 <small>confirmed cases</small>
Americas	1,140,520 <small>confirmed cases</small>
Eastern Mediterranean	165,369 <small>confirmed cases</small>
Western Pacific	144,121 <small>confirmed cases</small>
South-East Asia	44,592 <small>confirmed cases</small>
Africa	21,470 <small>confirmed cases</small>

Russia

Russia overtook China in the number of confirmed coronavirus cases on Monday when its tally climbed above 87,000, as pressure rose on the Government to consider easing lockdown restrictions for businesses to help shore up the rattled economy.

Worldwide Cases

(28.04.2020, 0600 am)

Globally
+2.23% increase
from day before

3,020,117 Total cases confirmed
917,397 Total recovered
209,799 Deaths confirmed

The true figure is expected to be far higher due to the lack of widespread testing in many countries.
